- ❖ Developing *Pattern Intelligence* is the Goal of The Pattern Institute.
- ❖ The innate capability of the brain is Pattern Recognition.
- ❖ Understanding the Power of Self that drives this capability is very important.

- ❖ Our mission is to inspire positive change in the power of thinking.
- ❖ We explore the boundaries of new knowledge on cognition and brain.
- ❖ We also imbibe from the eternal values enshrined in our ancient texts.

- **tpi's** values are rooted in purpose and service.
- **Purpose** is aimed at shaping capacities of mind through self-effort.
- **Service** is geared to inspiring children and youth.
- **Inspired** to be Creative, Productive, and Enriching!

Pattern Intelligence

The intelligence to discern, generalize, and to abstract patterns to solve challenges. It is the power of insight and innovation, of being inspired and inspiring, helping to shape a creative future - a future that is sustainable, and enriching.

Our Promise

tpi believes that The Power of Self can transform the society by unlocking the infinite potential of The Self in every individual.

Our Position

We pioneer real-world strategic insight into approaching challenges of the world. Our Self-Analytics is rooted in patterns of Gita-Intelligence, science of neuroplasticity, and thought-powered strategies for brilliance in life and living.

Our Scope

The integrated approach shall fundamentally influence a positive and holistic change in individuals, and in teams and organizations that are constituted of individuals! Children and youth are promises of tomorrow, and they shall ignite the fire of inspiration by being inspired themselves. Together we shall equip them to face and solve challenges at work and in life.
